

Dr. F.H. Wigmore Regional Hospital Fact Sheet

Our new hospital:

- Reflects the efforts of over 200 people that have been involved in its design. Not only have we included Doctors, Nurses, Therapists, Dietary Workers, Maintenance Workers, and Housekeepers, (to name a few) we've also included patients and their family members.
- Helps us provide "the right care in the right place by the right provider".
- Uses single patient standard rooms throughout the hospital that will allow healthcare professionals to provide better care for patients AND make the hospital much more efficient.
- Will house Saskatchewan's first permanent rural MRI (2016).
- Meets our needs today and into the future!

Inpatient Rooms – 100% Private Patient Rooms	
<p><i>72 Rooms in total:</i></p> <ul style="list-style-type: none"> - 4 Intensive Care Unit (ICU) - 4 Labour/ Delivery/ Recovery/ Post-partum - 2 Post-Partum - 62 Standard Inpatient 	<p><i>All Inpatient Rooms include:</i></p> <ul style="list-style-type: none"> - Outside window - Washroom - Dedicated family space with sleeping area
Treatment Rooms - 42 Standard, Single Rooms	

Flexibility

- 18 standard rooms designed to be easily adapted to provide more "ICU" care if needed
- 8 standard rooms built to a "Bariatric" standard – comfortably accommodate large patients
- Standard private patient rooms are not assigned to specific healthcare services and can easily be converted to meet different patients' needs. This design avoids the waste of beds.
- Department zones - allow department areas to take more patients into their areas by expanding into the neighboring zone as needed.

Accommodating Exterior

- 30-acre lot (compared to 6 acres at current facility)
- Double garage for EMS at ER entrance for unloading patients
- Ground level heli-pad on-site
- Multiple entrances to accommodate different services

Easy Access

- Primary access is from Main Street North onto Diefenbaker Drive
- Bus routes have been implemented to accommodate bus travelers
- From Hwy 1 East and West, take Main Street exit, turn left on Diefenbaker Drive (first set of lights).
