Introduction to the Public Accounts

The 2023-24 Public Accounts of the Government of Saskatchewan (the Government) are prepared in accordance with *The Financial Administration Act, 1993* and consist of two volumes. The Government is responsible for the integrity and objectivity of the information presented in these two volumes.

Volume 1

Financial Statement Discussion and Analysis provides users of the Government's Summary Financial Statements with an overview of the Government's performance by presenting comparative financial highlights and variance analysis. The information in the financial statement discussion and analysis should be read in conjunction with the Summary Financial Statements.

Summary Financial Statements provide an accounting of the full nature and extent of the financial affairs and resources of the Government. This includes the financial results of the General Revenue Fund, Crown corporations, boards and other entities controlled by the Government. A listing of all entities controlled by the Government, collectively referred to as the government reporting entity, is provided in schedule 19 of the Summary Financial Statements.

Volume 2

Volume 2 contains the following unaudited financial information:

- General Revenue Fund schedules and details;
- General Revenue Fund capital asset acquisitions schedule and details;
- revolving fund expenditure details;
- summary listing of payees who provided goods and services and capital assets of \$50,000 or more to the General Revenue Fund and revolving funds during the fiscal year;
- assets, liabilities and residual balances of pension plans and trust funds administered by the Government;
- remissions of taxes and fees; and
- road-use fuel tax accountability revenues and expenditures.

The Public Accounts, including the Compendiums, are available on the Government of Saskatchewan's website.

The Compendium of Financial Statements contains the financial statements of various government agencies, boards, commissions, pension plans, special purpose funds and institutions, as well as Crown corporations which are accountable to Treasury Board.

The Compendium of Payee Details contains the payee details of all Summary Financial Statement entities, except Crown Investments Corporation of Saskatchewan and its subsidiaries.

In addition, the financial statements and payee details of Crown corporations and wholly-owned subsidiaries that are accountable to the Crown Investments Corporation of Saskatchewan (CIC) Board can be found on CIC's website.

Guide to Volume 2

Volume 2 is prepared to enhance accountability by providing unaudited financial information for the General Revenue Fund.

The General Revenue Fund is comprised of all ministries and offices of the Government. This is the fund into which all revenues are paid, unless otherwise provided for by legislation, and from which all expenses are appropriated by the Legislative Assembly.

Some schedules provide a comparison of appropriations to expenditures by program. Expenditure is calculated from total expense, adjusting for capital asset acquisitions, amortization and other changes in non-financial assets, including prepaid expenses.

Oversees the development of land and Aboriginal policies related to non-renewable resources and the implementation of land claim agreements (Treaty Land Entitlement and Specific Claims). Management of the Mineral Rights Tax and Trusts Lands programs. In addition, it provides financial reporting for the resource areas of the Ministry.

Energy Regulation (Subvote ER05)

Objective

Regulates the lifecycle activities related to the responsible development of Saskatchewan's oil, gas and other mineral resources. Implements regulatory programs related to protecting public safety and the environment, maximizing recovery from oil and gas reservoirs, preventing wasteful production, managing greenhouse gas emissions, collecting well data and production statistics and managing long-term liabilities associated with wells, facilities and pipelines. It also supports the operation of the Surface Rights Board of Arbitration.

Program Delivery

This program, which is largely funded through the annual assessment of the Administrative Levy, is responsible for the licensing of wells, facilities and provincial pipelines in Saskatchewan. Activities associated with the delivery of the program include the management of oil and gas reservoirs, the prevention of waste, the establishment of operating standards, the enforcement of regulatory requirements,

upstream oil and gas, greenhouse gas emissions management, and the collection and dissemination of information related to exploration, production and sales. In support of these activities, this program is also responsible for managing the long-term liability associated with oil and gas wells and facilities including administering the Orphan Well Fund.

Resource Development (Subvote ER06)

Objective

Advances policies and programs that encourage the development of the mining, energy and forestry sectors with a focus on enhancing jurisdictional competitiveness. Investigates, compiles and maintains the foundational information about Saskatchewan's geology and its mineral and petroleum resources. Designs and maintains royalty and tax structures that optimize revenue while maintaining competitiveness throughout the resource commodity cycle. Provides for the reclamation of legacy northern uranium mines and management of sites within the Institutional Control Program.

Program Delivery

This program provides policy direction on energy and mineral forecasting, taxation and royalties, issues related to resource development, conservation and remediation, as well as advice on inter-provincial and federal-provincial initiatives and issues that may affect the resource sectors of the provincial economy. Administers the royalty system, including several growth incentive programs. It also allocates timber in the commercial forest zone, performs geological and mineralogical studies; maintains geoscientific databases, promotes resource development through publications, meetings, displays and individual consultations; and assesses petroleum and mineral exploration results.

Non-Appropriated Expense Adjustment

Objective

Accounts for expenses and expense recoveries that do not require appropriation. Typically these are expenses for which the cash outflow is appropriated in a different fiscal year than the expense or recovery is recorded.

Program Delivery

This program accounts for the estimated annual consumption of the Ministry's capital assets. Amortization is calculated using the straight-line method based on the estimated useful service life of the asset. Amortization is a non-voted, non-cash expense.

Highways (Vote 16)

The Ministry manages and provides for the future development of an integrated sustainable provincial transportation system, which supports economic growth and prosperity for Saskatchewan. Our infrastructure investments will be guided by strategic transportation policy and incorporate operating and maintenance practices which promote the safe and efficient movement of people and goods.

Central Management and Services (Subvote HI01)

Objective

Provides executive direction and centrally-managed services in the areas of finance, geographical information, communications and other operational services that include head office and program-based accommodations required for the delivery of the Ministry's mandate.

Program Delivery

In addition to providing funding to operate the Minister's and Deputy Minister's offices, this program provides the following services: budget preparation, revenue and expenditure processing and accounting, financial management advice, strategic planning, business improvement, internal audit, geographical information services, the customer service centre, records and information management as well as mail, archiving and accommodation funding.

This program area also delivers strategic communications planning for the Ministry including developing internal and external communications, providing advice on communications issues, administering the Ministry's media relations, event organization, public education, and social media.

Preservation of Transportation System (Subvote HI04)

Objective

Provides preventative maintenance on provincial highways and bridges. It provides delivery, planning, engineering and management of preservation and capital construction programs.

Program Delivery

Provide the preservation and preventative maintenance work required to protect the public's investment and deliver an appropriate level of service from the transportation network. This is accomplished through the delivery of preservation maintenance activities for multiple types of infrastructure, including pavements, thin membrane surfaces, gravel highways, bridges, and weigh scales, as well as emergency response.

This program also funds the staff required to deliver the engineering and administrative services involved with the delivery of operational and preservation activities and capital projects. This includes managing the equipment fleet and procurement services to deliver in-house preservation and operations activities.

Transportation Planning and Policy (Subvote HI06)

Objective

Provides for strategic transportation planning and policy development. It ensures a modern and competitive regulatory framework for transportation that aligns with Saskatchewan's regulatory modernization initiative. It assesses the efficiency of Saskatchewan's transportation network for the development of transportation plans. It also includes technical advice to shortline railways and regulation of provincial railways.

Program Delivery

Develop strategic transportation policies and planning in consultation with the public and other government organizations. This involves developing and maintaining policies and regulations for highway, rail, aviation and marine infrastructure.

This program area provides advice and prioritization for the delivery of projects and development of long-term multi-modal network planning. This program area is also responsible for intergovernmental relations, including working with municipal jurisdictions for road-use planning, federal funding and regulation change initiatives, managing third party programs and national trade and transportation discussion representation and research.

Infrastructure and Equipment Capital (Subvote HI08)

Objective

Provides for the structural restoration, rehabilitation and new construction of paved highways, bridges and other transportation infrastructure capital by utilizing in-house and contracted resources. It also provides for major capital accommodation improvements, machinery and equipment, and minor capital.

Program Delivery

Deliver capital infrastructure improvements to enhance the provincial transportation system. This involves the project management and delivery of enhancements and rehabilitation to the transportation network. It includes capital highway preservation and repaving, highway surface upgrades and road expansion initiatives, including twinning, passing lanes and interchanges. This program also delivers bridge and culvert replacements, capital safety improvements, ferry and airport improvements and the acquisition of machinery and equipment used for maintaining and operating the provincial highway system. This subvote also provides for minor capital including salt facilities, intelligent transportation assets and the ministry's asset retirement obligations.

Custom Work Activity (Subvote HI09)

Objective

Provides for custom work activities performed by the Ministry for municipalities, Crown corporations and other organizations on a full cost-recovery basis.

Program Delivery

Provide for custom work activities.

Operation of Transportation System (Subvote HI10)

Objective

Provides for the safe access and operation of the transportation system through the delivery of a range of operational and maintenance services including pavement marking, signing, lighting, mowing, snow and ice control, ferry and provincial airport operations, information technology management and systems support, project support and land management. It also provides related operational services oversight such as technical standards, regulation development and traffic engineering.

Program Delivery

Provide safe access and an appropriate level of service for the transportation network. This is delivered through many activities, including winter snow and ice control, ferry maintenance and services, airport maintenance and services, and traffic safety and guidance operations, including pavement marking, signing, mowing, lighting, railroad crossing maintenance, and maintaining the right of way.

This program provides operational services, including standards development and maintenance, traffic data collection, trucking program and regulation administration, land management, employee and public safety initiatives, engineering studies, area office management, highway hotline and the operation and maintenance and financing charges of the Regina Bypass. It also funds the information technology services provided by the Ministry of SaskBuilds and Procurement and the remediation of contaminated sites.

Program Delivery

This program accounts for the estimated annual consumption of the Ministry's capital assets. Amortization is calculated using the straight-line method based on the estimated useful service life of the assets with the exception of heavy equipment which is based on usage. Changes in valuation or loss on disposition of assets are also treated as amortization. Amortization is a non-voted, non-cash expense.

Strategic Municipal Infrastructure (Subvote HI15)

Objective

Provides for partnership project initiatives that facilitate traffic management on the provincial transportation system. It also provides for strategic investments in municipal infrastructure, air services including community airports, and shortline railway programs.

Program Delivery

Provide the funding for the delivery of third-party infrastructure programs, including the Rural Integrated Roads for Growth Program, the Urban Highway Connector Program, the Community Airports Partnership Program, the Shortline Rail Improvement Program, and the Strategic Partnership Program.

Non-Appropriated Expense Adjustment

Objective

Labour Relations and Workplace Safety (Vote 20)

The Ministry of Labour Relations and Workplace Safety promotes, supports and enforces safe work practices and employment standards. It fosters a fair and balanced employment environment that respects the rights, duties and responsibilities of employees and employers thereby ensuring healthy, safe and productive workplaces.

Central Management and Services (Subvote LR01)

Objective

Provides executive direction and centrally-managed services in the areas of finance, information management, policy and planning, communications and other operational services including accommodations required for the delivery of the Ministry's mandate.

Program Delivery

This program provides financial management and administrative support to the Ministry in the centrally administered functions of accounting, budgeting, policy, planning and evaluation, communications, and executive management. It also provides payments to the Ministry of SaskBuilds and Procurement for services rendered.

Occupational Health and Safety (Subvote LR02)

Objective

Promotes safe and healthy workplaces through education, training, inspections, incident investigations and enforcement of workplace safety standards.

Program Delivery

The Branch designs and executes programs and activities that promote hazard identification, risk assessment and safe work practices to reduce the provincial injury rate. This is accomplished by using an integrated compliance and enforcement model, which in partnership with the Workers' Compensation Board as WorkSafe Saskatchewan, seeks to improve occupational health and safety awareness and culture in Saskatchewan workplaces and communities. The OHS Branch investigates reported incidents, inspects workplaces and encourages the adoption of safety best practices and full compliance with the occupational health and safety legislation and regulations.

Employment Standards (Subvote LR03)

Objective

Establishes minimum standards of employment through the enforcement of legislation related to hours of work; overtime; minimum wage; annual holidays; termination or layoffs; leaves of absence including compassionate care, maternity, paternity and bereavement; and equal pay provisions. It also delivers outreach programs to workers and employers on rights and responsibilities related to employment standards, and operates the Ministry's client service desk.

Program Delivery

Employment Standards staff, located in eight district offices, are involved in both the promotion of and compliance with the Province's minimum employment standards. The promotional activities include the Branch's educational initiatives and the operation of an inquiry line to respond to both employers' and employees' questions on matters related to employment standards. The compliance activities involve investigation on complaints received, collection of lawfully owed wages and prosecution of those entities contravening the employment standards legislation and regulations.

The Branch also conducts compliance audits and investigations to ensure foreign workers are treated fairly; as well as oversees the registration of foreign worker employers as well as licensing of immigration consultants and recruiters.

Labour Relations Board (Subvote LR04)

Objective

Rules on collective bargaining rights and adjudicates disputes between unions and employers, primarily through public hearings and written decisions. Adjudicates duty of fair representation claims by members against their union. Assigns adjudicators to hear appeals from Employment Standards and Occupational Health and Safety decisions, and hears appeals from those adjudicators' decisions. Chairs essential services tribunals.

Program Delivery

The Labour Relations Board is an independent quasi-judicial tribunal that exercises the powers and duties conferred to it by Parts IV, VI and VII of *The Saskatchewan Employment Act*. The Board upon application, establishes bargaining rights certifying unions as the exclusive bargaining agent of appropriate groups of employees, adjudicates disputes between employers and unions, between union members and their union. The Registrar of the Board appoints adjudicators to hear appeals from employment standards and occupational health and safety decisions, and the Board hears appeals from those adjudicators' decisions. The Chairperson and Vice-Chairperson also chair essential services tribunals.

The Board is comprised of a chairperson, and up to two vice-chairpersons, with equal representation of employers and employees. Panels of the Board conduct public hearings and issue orders and written decisions. The Board's decisions are final and binding upon the parties.

Labour Relations and Mediation (Subvote LR05)

Objective

Provides conciliation and mediation services to assist employers and unions in resolving disputes arising out of the collective bargaining process and promotes cooperative labour-management relations.

Program Delivery

The Branch provides conciliation and mediation services to assist in dispute resolution, and joint employee and employer training in conflict resolution, problem solving, and interest-based bargaining. It also provides technical and

advisory services relating to industrial relations, and promotes cooperative labour management relations.

Program Delivery

Workers' Advocate staff provide advice, guidance and advocacy services for injured workers on workers' compensation benefits claims. Staff also provide representation to injured workers in the compensation appeal process. Legislative Assembly (Vote 21)

The Legislative Assembly is the parliament of Saskatchewan, consisting of Members who are elected by the people of Saskatchewan. The mandate of the Legislative Assembly is to make provincial laws, control public finances and to debate public issues and the actions of the Executive Government through the Province's elected representatives.

Central Management and Services (Subvote LG01)

Objective

Provides centrally-managed services in the areas of finance, human resources, policy and planning, information management and communications services.

Program Delivery

This program provides advisory, financial, and human resource services to the Speaker's Office, Statutory Officers and the Legislative Assembly Service. Administratively, it provides office equipment, supplies, and central computer services to the Legislative Assembly, including personnel assistance and basic office equipment to the caucus and constituency offices.

Legislative Assembly Services (Subvote LG03)

Objective

Provides direction through the Clerk of the Legislative Assembly and services necessary for Members and for the operation of the Assembly and committees, including procedural, protocol, sessional, security, legal, public information and parliamentary library services.

Program Delivery

This program provides the elected representatives with procedural, protocol, security, and sessional services. Public information services are provided through verbatim reports, legislative publications, educational material, and parliamentary education and heritage. It also provides television broadcasting services for the Legislative Assembly and its committee proceedings. The Legislative Library acquires, catalogues, and provides access to information resources to support the work of the Legislative Assembly and the elected Members. The Law Clerk and Parliamentary Counsel provides Members and the Legislative Assembly Service with confidential in-house legislative legal services including drafting of Bills, rendering legal opinions as required, and interpreting legislation and regulations.

Committees of the Legislative Assembly (Statutory) (Subvote LG04)

Objective

Provides services for the operation of standing and special committees of the Legislative Assembly. It also provides for Members' committee expenses.

Program Delivery

This program provides for indemnity and expense payments for Members who serve on all-party legislative committees during a period when the House is not in session. These payments are made in accordance with directives authorized by the Board of Internal Economy. This program also provides support staff and services for the committees.

Payments and Allowances to Individual Members (Statutory) (Subvote LG05)

Objective

Provides remuneration and expense payments to Members of the Legislative Assembly.

Program Delivery

This program funds all payments to Members in their role as MLAs, including salary, travel, telecommunications and constituency service expense payments. It also funds payments to the Leaders of the Opposition and Third Party, and to Members who perform additional duties relating to the day-to-day operations of the Legislative Assembly and its committees. Payments are authorized in statute, with amounts determined by the Board of Internal Economy.

Caucus Operations (Statutory) (Subvote LG06)

Objective

Provides research, secretarial and administrative services for Government and Opposition caucuses. It also provides for the operation of the Office of the Official Opposition.

Program Delivery

Grant payments, authorized in statute, are paid monthly to caucuses, Independent Members, and the offices of the Leaders of the Opposition and Third Party. The annual grant amounts are approved by the Board of Internal Economy and provide resources to enable Members of the caucus and the Leaders of the Opposition and Third Party to perform their duties. The funds, administered by the caucus or the opposition office, are used for research, information technology, administrative services and other operating expenses of the caucus.

Office of the Speaker and Board of Internal Economy (Subvote LG07)

Objective

Provides executive direction through the Speaker and the Board of Internal Economy and provides services for the operation of the Speaker's Office.

The Office of the Speaker provides administration and services to support the Speaker in their duties and responsibilities as chief presiding officer of the Legislative Assembly.

Non-Appropriated Expense Adjustment

Objective

Accounts for expenses and expense recoveries that do not require appropriation. Typically these are expenses for which the cash outflow is appropriated in a different fiscal year than the expense or recovery is recorded.

Program Delivery

This program accounts for the estimated annual consumption of the Legislative Assembly's capital assets. Amortization is calculated using the straight-line method based on the estimated useful service life of the asset. Amortization is a non-voted, non-cash expense.
